Collection of Waste Batteries

As a producer of industrial batteries under the Waste Batteries and Accumulators Regulations 2009, we EnerSys produce and place on the market Lead Acid, Nickel Cadmium and Lithium batteries. We are obliged to take back free of charge, waste industrial batteries supplied to an end user for treatment and recycling. We are required to do this in any calendar year we place new industrial batteries on the market.

If any of our customers or in certain cases other end users, require us to take back Industrial batteries, they should contact us at

EnerSys Customer Services
Email: contracts@uk.enersys.com
Tel: 0161 794 4611

We will agree the necessary arrangements for the return, proper treatment and recycling of the waste industrial batteries.

Yours truly,

Adam Holbrook

A handwritten signature in black ink, appearing to read 'Adam Holbrook', is written over a light blue horizontal line.
